Building A Better Spelman For You

Spelman ALIVE: Building A Better Spelman For You

At her March 2003 inauguration, President Beverly Daniel Tatum proclaimed "Spelman ALIVE - strong, vital and productive well into the 21st century - that is our goal. "

A	Academic Excellence
L	Leadership Development
I	Improving Our Environment
V	Visibility of Our Achievements
E	Exemplary Customer Service

Because the *I* in *Spelman ALIVE* represents *Improving our Environment*, we are currently involved in a number of initiatives to improve our physical environment. During this period of progress, Spelman College is committed to a safe and secure environment for all of its students, faculty, staff, alumnae and visitors. Safety is a top priority. The following areas are being enhanced to provide a better Spelman for you.

Cosby Academic Center

Spelman College is renovating the exterior façade of Cosby Academic Center. All bricks and stone are being removed from the building and, over the next several months, will be reinstalled. The process is necessary to insure the longevity of the Center. The anticipated completion date is January 2004.

The College will not allow individuals to work in and around the Center, if at any time the building is deemed unsafe. The structural integrity of the Center is intact. It is fine for faculty, staff and students to work, study and attend classes in the building. As a precaution, please adhere to all safety rules and use exits and entrances that are open to the public.

Sisters Chapel

Sisters Chapel symbolizes the meaning of every Spelman student's intellectual development and embodies the spirit of the College's mission. The renovation of historic Sisters Chapel will include first-time installation of restroom and air-condition facilities; updating wiring to accommodate technology; enhancing instrumentation and acoustics; replacing the copper roof and other structural deterioration; and rehabilitating and replacing floors, furniture, fixtures, doors and stained glass windows. Renovation is scheduled for completion August 2004.

Packard Hall

Packard Hall, built in 1886, is being renovated under the United Negro College Fund/Department of Interior Historic Preservation Initiative at Historically Black Colleges and Universities. Upon completion, Packard Hall will house the Vice President for Enrollment Management, Registrar, Student Financial Services, Admissions and the Controller's Office. The anticipated completion date is January 2004.

Bessie Strong Hall

Renovation plans for Bessie Strong Hall include restoration of wood floors, refinished bathrooms, new plumbing, wiring for phones, cable and Internet, and the installation of a new external staircase. When renovations are complete, Bessie Strong Hall will serve as the Women in Spiritual Discernment of Ministry Center (WISDOM), a new residential living and learning community. The WISDOM Center will create a safe space for Spelman women to explore their spirituality, share faith traditions, and support campus-wide religious and spiritual activities. The anticipated completion date is November 2003.
