Intercultural Engagement

This course will help students develop the knowledge, skills, and understanding to communicate and engage appropriately across cultures, and ultimately become a more effective leader in today's globalizing world. In addition to honing intercultural skills that can be used in a wide variety of situations, you'll learn about socioeconomic, political, and cultural issues in your destination country. Students will also develop a personal vision statement for engaging in an intercultural world. The course will include in-class lectures and discussions, cultural activities and excursions, and assignments that will engage you in the local culture.
